

Machine Learning for econometrics

Causal perspective

Matthieu Doutreligne

January 10, 2025

Table of contents

1. Recall from the previous session
2. Identification strategies
3. Identification proofs
4. Statistical inference
5. Session summary
6. Going further

Recall from the previous session

Identification strategies

Identification strategies

Outcome based identification

Treatment based identification

Identification proofs

Identification assumptions

Doubly robust identification

Statistical inference

Session summary
